**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 9 and 21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In dependent claims 9 and 21, the formation of a polymer layer can be a formation of a “polymer layer having a thickness of about zero”, which does not seem to make sense since a layer is *not formed* when it has a thickness of *about zero*.

Furthermore, the examiner contemplates an enablement rejection: If no polymer layer is formed (i.e. polymer is 0 thickness), and no additional polymer is deposited, how is the claimed “vertical profile shape” attained?

3. Claims 1-26 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01.

Applicant's disclosure indicates that the use of a “conductive stop layer” is “imperative” [p. 5, line 13 of paragraph]. Yet, claims 1-23 only recite a “stop layer” as opposed to a –conductive stop layer--.

Claims 24-26 omit the “imperative conductive stop layer” altogether.

***Allowable Subject Matter***

4. Claims 1, 12 and 24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
5. Claims 2-11, 13-23 and 25-26 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
6. The following is a statement of reasons for the indication of allowable subject matter: The prior art does not disclose a method of forming a contact/via hole over a conductive stop layer wherein a fluorine based polymer layer is formed at the bottom of an initial contact/via hole during etching (the hole being narrower toward the bottom of the hole), preferably with additional polymer being deposited in the hole, wherein the profile of the hole is subsequently made more vertical by fluorine based radicals released from the polymer layer during removal (preferably along with removal of photoresist).

***Conclusion***

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 703-306-5689. The examiner can normally be reached on M-F (7:30AM-3:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kamand Cuneo can be reached on 703-308-1233. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
